## EDUCATION

---

<b>B.S in Data Science and Artificial Intelligence – Universidade Federal da Paraíba – 4/8 (1st)</b>	02/2019 – 06/2026 (expected)
--	------------------------------

## EXPERIENCE

---

<b>Administrative Assistant – Unimed Hospital</b>	03/2020 – 03/2021
---	-------------------

<b>Inventory Process Controller – Timol Magnetic Products</b>	06/2023
---	---------

Worked in an extensive process of inventory control, acting as an inventory leader and helping on processes development.

## PROJECTS

### Data Analyzing on Drug Consumption

A study to find out if the consumption of legal drugs can influence the consumption of illegal drugs. I worked on the mainline, conducting data analysis with Pandas and NumPy to provide a reliable report.

### Data Structures for Problem Solving

I worked on the mainline, developing data structures such as trees, linked lists, and graphs, as well as the implementation of Depth-First and Breadth-First Search algorithms to assist with minimum path problems.

### Python Game for Presentation of Data Science Course of the Federal University of Paraíba.

I served as one of the lead developers of a small game developed in Python to serve as a presentation for the latest Data Science and Artificial Intelligence course at the Federal University of Paraíba.

## TOOLS AND INTERESTS

---

<b>Tools</b>	C, C++, C-Sharp, Python, Java, Git, Linux, Unity, Roll20, Firecast.
--------------	---

<b>Interests</b>	Game Development, Back-End Development, Problem Solving, Integer Programming, Software Engineering, Writing.
------------------	--

## EXTRACURRICULAR ACTIVITIES

---

<b>Social media manager UFPB GEEKS</b>	06/2019
--	---------

I contribute to our first geek and technological event UFPB Geeks Instagram account by creating and reviewing content.
